This is your source for everything you need to continue to conduct business in a virtual environment while also giving you updates to processes as our communities continue to reopen. Resources include news such as paramedical process updates, digital business guides, frequently asked questions, tips on connecting with clients virtually and recordings of every *This week with Canada Life* call.

## Canada Life community-focused brand campaign update

Canada Life Week to Save Lives makes an impact across the country. 16,670 donor appointments were booked during the Week to Save Lives and helped Canadian Blood Services and Hema-Quebec exceed their weekly blood collections targets! You can #BeAHero from home and join Canada Life in supporting Canadian Blood Service's Stem Cell Registry. As a result of Covid-19, recruitment of stem cell donors has dropped by 70% and donors from diverse backgrounds are especially needed. Learn more about the program and help to spread the word. Although Hockey Helps the Homeless can't take to the ice this year, the Canada Life Cup virtual fundraising campaign ensures that teams still have the ability to fundraise in support of local organizations dedicated to supporting homeless and at-risk Canadians. The need this year is greater than ever, and the cause is #BiggerThanTheGame
